

# Firefighter Challenge - Grand National Championships - 2002

**Description:** The Grand National Championships are a point value system designed to afford competitors with the greatest incentive to compete at multiple venues during the competition season. Using a funnel technique (see Point Scale), points are allocated after each event based solely on merit (i.e. placement). At the conclusion of the 2002 season, those competitors with the most accumulated points in their respective category (division) are crowned the Grand National Champion. **Procedure:** Points will be awarded to the top 20 competitors in the Individual, Female, Over-40, Over-50 and Team divisions. A single competitor can only earn points for their Team and within their respective age division. Points will also be awarded to the top 4 teams in both the Male and Female Relay divisions. Points will be awarded beginning with the first regional event and ending with the Last Chance Challenge. **Results:** The top 5 competitors in each division (according to points) will be posted and updated on the Web Site, as well as at each competition location. **Awards:** Awards will be presented at the Worlds competition to the top winner(s) in each division. Competitors will be recognized as the Grand National Champion of their respective division.
